

International Workshop  
**TOEPLITZ-LIKE OPERATORS AND RELATED TOPICS**  
November 18-21, 2008  
Department of Mathematics, CINVESTAV, Mexico City

The main goal of the Workshop is to get together leading world experts in the field to discuss the modern state of the theory of Toeplitz and related operators, as well as their numerous applications. In addition, the Workshop will be held in honor of **Nikolai Vasilevski**, Professor of the Department of Mathematics, Cinvestav, on occasion of his 60th birthday.

**Invited Lecturers:**

Lewis Coburn, State University of New York, Buffalo, NY, USA.

Raul Curto, University of Iowa, Iowa City, IA, USA.

Ronald Douglas, Texas A & M University, College Station, TX, USA.

Roland Duduchava, A. Razmadze Mathematical Institute, Tbilisi, Georgia.

Sergei Grudsky, CINVESTAV, Mexico City, Mexico.

Yuri Karlovich, Autonomous University of the Morelos State, Cuernavaca, Mexico.

Raul Quiroga-Barranco, CIMAT, Guanajuato, Mexico.

Vladimir Peller, Michigan State University, East Lansing, MI, USA.

Salvador Perez Esteva, Institute of Mathematics, UNAM, Cuernavaca, Mexico.

Vladimir Rabinovich, National Polytechnical Institute, Mexico City, Mexico.

Michael Shapiro, National Polytechnical Institute, Mexico City, Mexico.

Ilya Spitkovsky, College of William & Mary, Williamsburg, VA, USA

Eugene Shargorodsky, King's College, London, United Kingdom.

Nikolai Tarkhanov, University of Potsdam, Potsdam, Germany.

Nikolai Vasilevski, CINVESTAV, Mexico City, Mexico

The Organizing Committee of the Workshop is formed of :
